Network Multifunction Systems
and Digital Copiers

Print or copy at 90 pages per minute with an advanced multifunction, multitasking office system.

High-Performance Output

Ideal for heavy network printing environments.

All the power you need to meet the high-volume demands of the office, centralized reproduction and print shop environments. The Document Centre 490 advanced architecture includes the SMart™ network controller to:

- Receive, RIP and print at the same time
- Maximize effective print speeds
- Minimize the load on your network

Manage each step of the document cycle from the desktop with easy-to-use CentreWare® software. Simplify the tasks of the network administrator with applications, tools and snap-ins that ease network installation, configuration and administration.

Quick, convenient, flexible copying.

Easy-to-use automatic features, a large, easy-to-use graphical interface and an integrated control panel make complex copy jobs easier than ever. Productivity-boosting, digitally-enabled features let you scan-ahead multiple jobs while the 490 prints other jobs. Run a

proof set. Create saddle-stitched booklets and more. Integrate documents from the document handler and the platen, or from different paper trays, into a single job. Then store the job parameters for later reuse. All the power is right at your fingertips.

Distribute with Speed and Ease

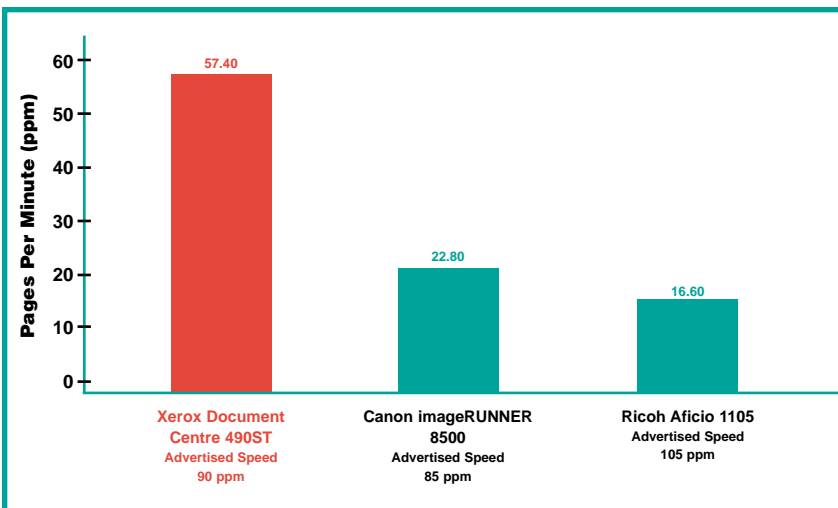

Easier, faster, better e-mail.

Send hard copy directly to any e-mail address right from your Document Centre system. For convenient, reliable, secure, high-speed document distribution at a fraction of the cost of faxing, you can't beat the Document Centre e-mail feature. Search and select addresses using your existing e-mail address books. Or address e-mail using the standard keyboard on the touch screen. A message is displayed to let you know a scan has successfully transferred to the mail server.

A new way to look at faxing.

Take advantage of unparalleled fax functionality and flexibility by integrating your Document Centre system with your network fax servers. Optional Xerox-validated third-party network-faxing solutions let you cost-effectively support multiple Document Centre systems on a single fax server. You can transmit hard-copy faxes to connected Document Centre systems anywhere in the world.

The Xerox Document Centre 490ST was 2.52 times faster than the Canon imageRUNNER 8500 and 3.46 times faster than the Ricoh Aficio 1105, as tested by Buyers Lab. In a busy networked office environment, the Xerox Document Centre 490ST manages multiple jobs with little effort and offers strong productivity advantages over the competitive systems that were tested.*

*Printer productivity testing was conducted by Buyers Laboratory Inc. (BLI), with each product operating in default mode and resolution set at 600 dpi. Multiple jobs from a BLI test suite were sent in series to each device, with output consisting of a mix of single- and multiple-stapled sets with a banner page for each job in the test suite. The order in which jobs were sent was randomly selected.

Network Multifunction Systems and Digital Copiers

The network power to move and manage documents faster.

Advanced finishing capabilities to help save time and money.

Designed digital from the ground up for performance, reliability and ease of use.

Scanning as Easy as Copying

Hard copy to digital files in seconds.

Select your scan destination, scan your documents and press the Start button. With the Document Centre 490 system's optional network scanning services, it couldn't be easier. Scan directly to your desktop, a network file server, e-mail addresses, a document management application, a work process improvement software solution—even the Web. Xerox lets you add text data to scanned files right at the control panel. Enter the document title, subject, date—virtually anything you want—to facilitate classification, storage and search/retrieval from document management applications.

A Great Finish

A selection of powerful finishing options to meet your specific needs.

The optional Xerox Document Centre 490 Professional Finisher completes your great-looking documents automatically—saddle-stitched booklets, manuals, newsletters, brochures, reports, envelope-ready folded documents and more. This can help you do better work faster and significantly reduce labor costs.

- Multi-position stapling up to 100 sheets
- Saddle-stitched booklets made easy
- Automatic letter-size tri-folding only from Xerox

If you don't need the advanced capabilities of the Professional Finisher, you can choose from

our other Finishers which offer 100-sheet or 50-sheet multi-position stapling.

Work Faster, Perform Better

Take advantage of these productivity-boosting features and capabilities:

- Effective network printing speeds up to three times faster than competitive network multifunction systems*
- True multitasking—print while you scan, copy while you e-mail, scan while you fax
- Advanced finishing options, including 100-sheet multi-position stapling, saddle-stitch booklet making and letter-size tri-folding
- Time-saving print queue management—job status is never in doubt
- Intuitive interface common to all Document Centre systems makes them easy to use, cuts training time
- Image Overwrite Security option ensures confidentiality of document information
- Supports the latest wireless (802.11b/WiFi) network connectivity standard via certified third-party Ethernet Bridge adapters
- An array of Xerox software solutions—FlowPort®, DocuShare® and mDoc™—plus optimized office technologies from industry-leading Xerox Business Partners
- Robust monthly duty cycle of up to 500,000 meets the demands of high-volume copying and printing environments

Document Centre 490 with optional Professional Finisher

100-sheet capacity

Document Centre 490.

- Meets the demands of high-volume workgroups and production environments
- As a standalone Digital Copier or a sophisticated Network Multifunction System, it's modular and upgradable
- Fast, high-resolution printing and copying
- Benchmark network printing productivity and unparalleled reliability
- Advanced finishing capabilities that help save time and money

Xerox Document Centre 490 systems are available as Digital Copiers and as powerful Network Multifunction Systems.

- For workgroups that require a complete array of document services, the Network Multifunction Systems are the perfect choice
- The stand-alone Document Centre copier is ideal for workgroups that need a powerful yet easy-to-use copier. Network connectivity can be added later as needed

Document Centre 490 options include:

- Network Scanning with E-mail
 - Scan to PC Desktop Client Software
 - Network Fax Server Integration
 - Network Accounting Enablement
- Note:** Options above are available only for Network Multifunction configurations. Copier models can be upgraded to Network Multifunction configurations.
- Image Overwrite Security
 - Foreign Device Interface/RS-232 Port
 - Network Connectivity (option for Digital Copier)
 - SMart network controller with 433 MHz processor and 128 MB RAM
 - 9.1 GB (minimum) hard disk
 - 10/100BaseT Ethernet connectivity
 - All major network protocols and operating systems supported
 - A choice of output options:
 - 2,250-sheet capacity finisher capable of stapling 50-sheet sets
 - 2,250-sheet capacity finisher capable of stapling 100-sheet sets
 - Professional Finisher which includes 100-sheet stapling, saddle-stitch booklet making, and letter-size tri-folding

Value-added software.

A growing portfolio of innovative software solutions—developed by both Xerox and our Business Partners—is available to help you quickly and easily scan and fax documents or track system usage.

Xerox Business Partners.

Xerox Business Partners create customized solutions that extend the functionality of your Document Centre system. For information on these solutions, visit: www.xerox.com/partners/xbp.

Supplies, service and support.

Xerox gives you a single-vendor solution that simplifies supplies ordering and record keeping. And with a comprehensive range of Xerox service plans plus multiple levels of technical support professionals, you can be sure you'll have the uptime you need.

Designed to be kind to our planet.

Xerox is committed to safeguarding our environment. All Document Centre models are designed to conserve energy, use paper efficiently and produce as little waste as possible.

Total satisfaction . . . guaranteed.

All Xerox Document Centre products under the Xerox Warranty or subject to a Xerox Maintenance Agreement are backed by our Xerox Total Satisfaction Guarantee. With Xerox, you decide if you're satisfied. Certain restrictions apply.

Xerox is leading the way to better work in offices everywhere.
