MITA COPYSTAR-900D

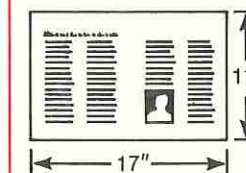

# MITA COPYSTAR 900D DRY COPIER

The new Mita Copystar 900D Electrostatic Copier gives you the sharp, well-defined copies you expect only from the much more expensive bond copiers. Whether it's halftones or line drawings . . . typing . . . even computer sheets . . . the 900D gives you blacker blacks . . . brighter whites . . . corner-to-corner clarity with no fade out towards the center. You get this fine quality reproduction consistently in copy sizes ranging from 3" x 5½" to 11" x 17" at the rate of 15 copies per minute.

All this in a compact table top machine that's dependable, efficient, easy-to-use and, most important, well within your budget. And, its unique instant on/off feature saves energy, saves time.

energy, saves time

copy sizes to a big 11" x 17"

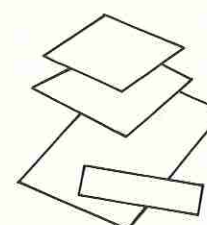

dial pre-selected quantity
