

AMETEK[®]
ELECTRONIC SYSTEMS PROTECTION

Why Power Quality Matters to Industrial Print

Power problems are real and quantifiable

40%

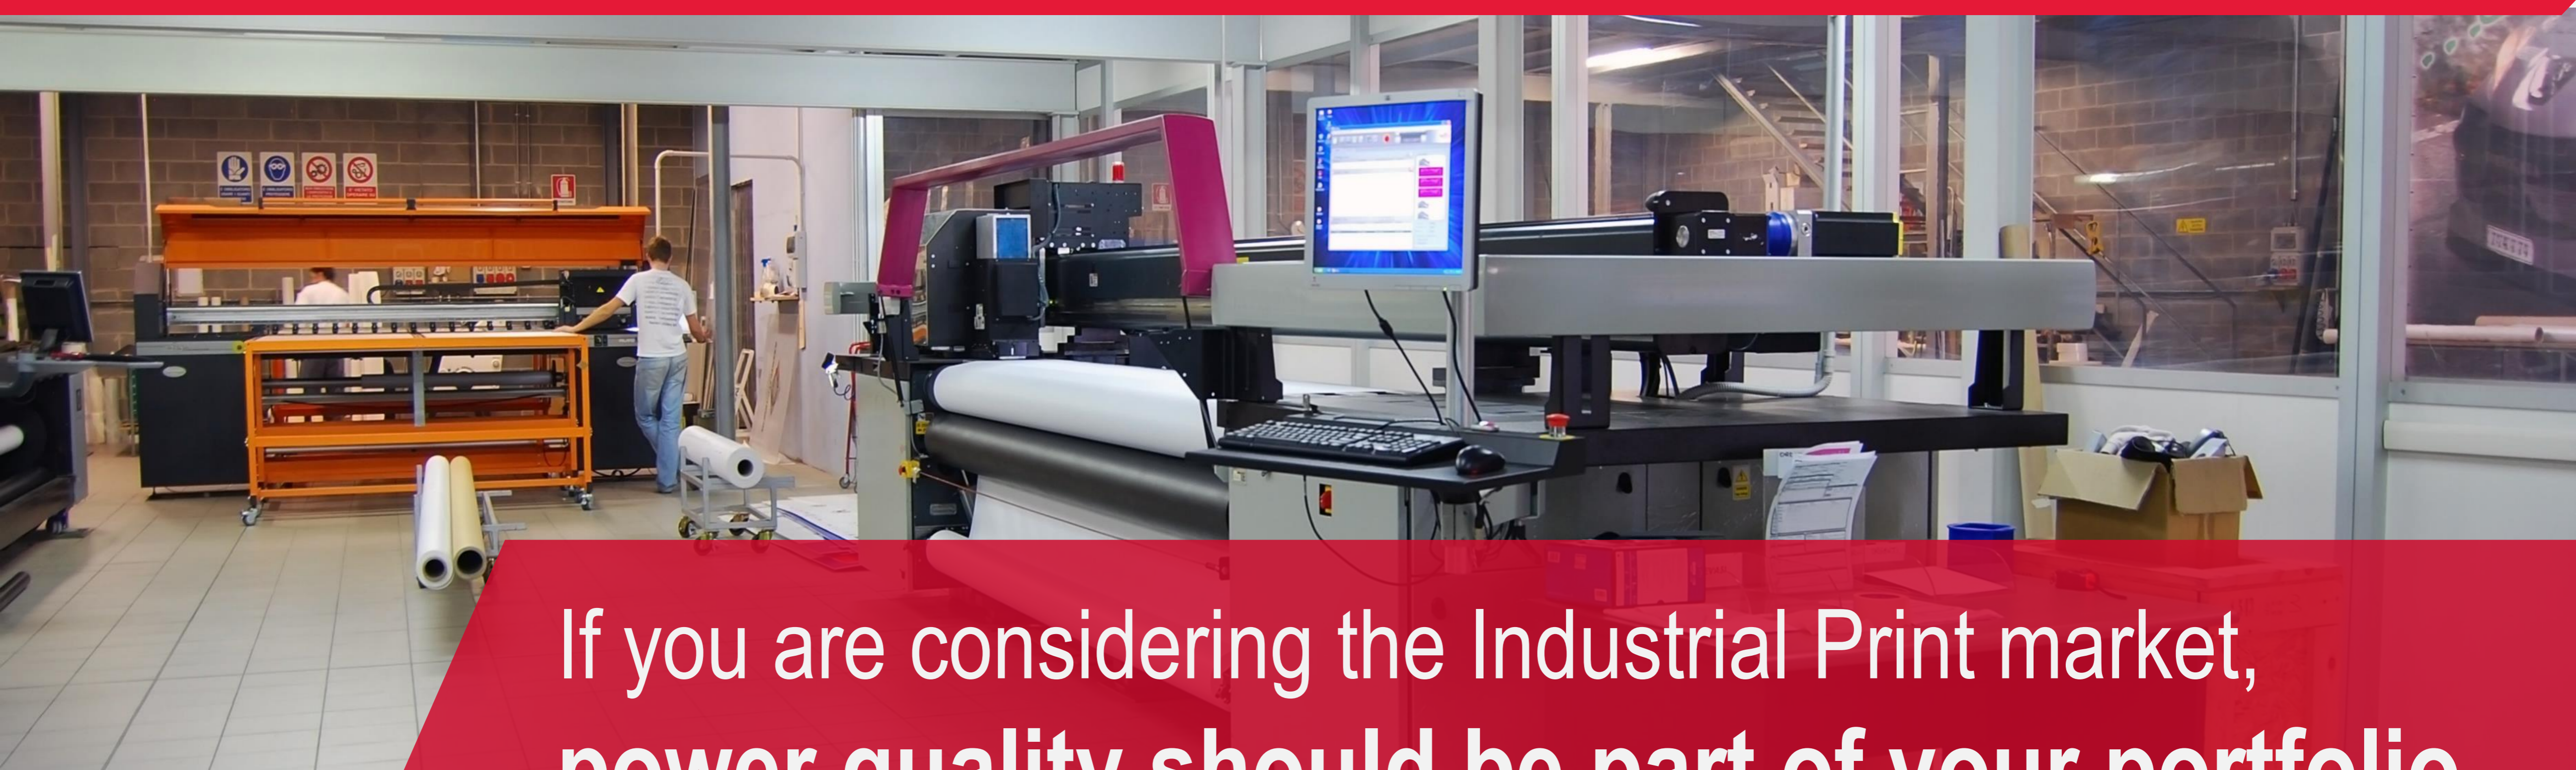

Of all business downtime is power related

Source: Florida Power Study

\$7,900

Avg. cost of downtime per minute

Source: Ponemon Institute

**If you are considering the Industrial Print market,
power quality should be part of your portfolio**

- **Production equipment is highly susceptible to power problems**
- **Downtime = lost revenue**
- **Prevention and diagnosis is critical**

Industrial printers and peripherals require a clean electrical environment

A comprehensive power quality solution
will insure optimum uptime and profitability

Principal power handling, protection, and conditioning

- Transformers
- Single phase and 3 phase power protection systems
- Single phase and 3 phase UPS systems

Supplemental protection and back up

- Power Line Voltage Regulation
- Ferroresonant industrial and PWM UPS systems

Analytics and diagnostics package

- Power system diagnostics and predictive cloud analytics

The Premier Power Partner
for the Imaging Industry

30 + years industry expertise

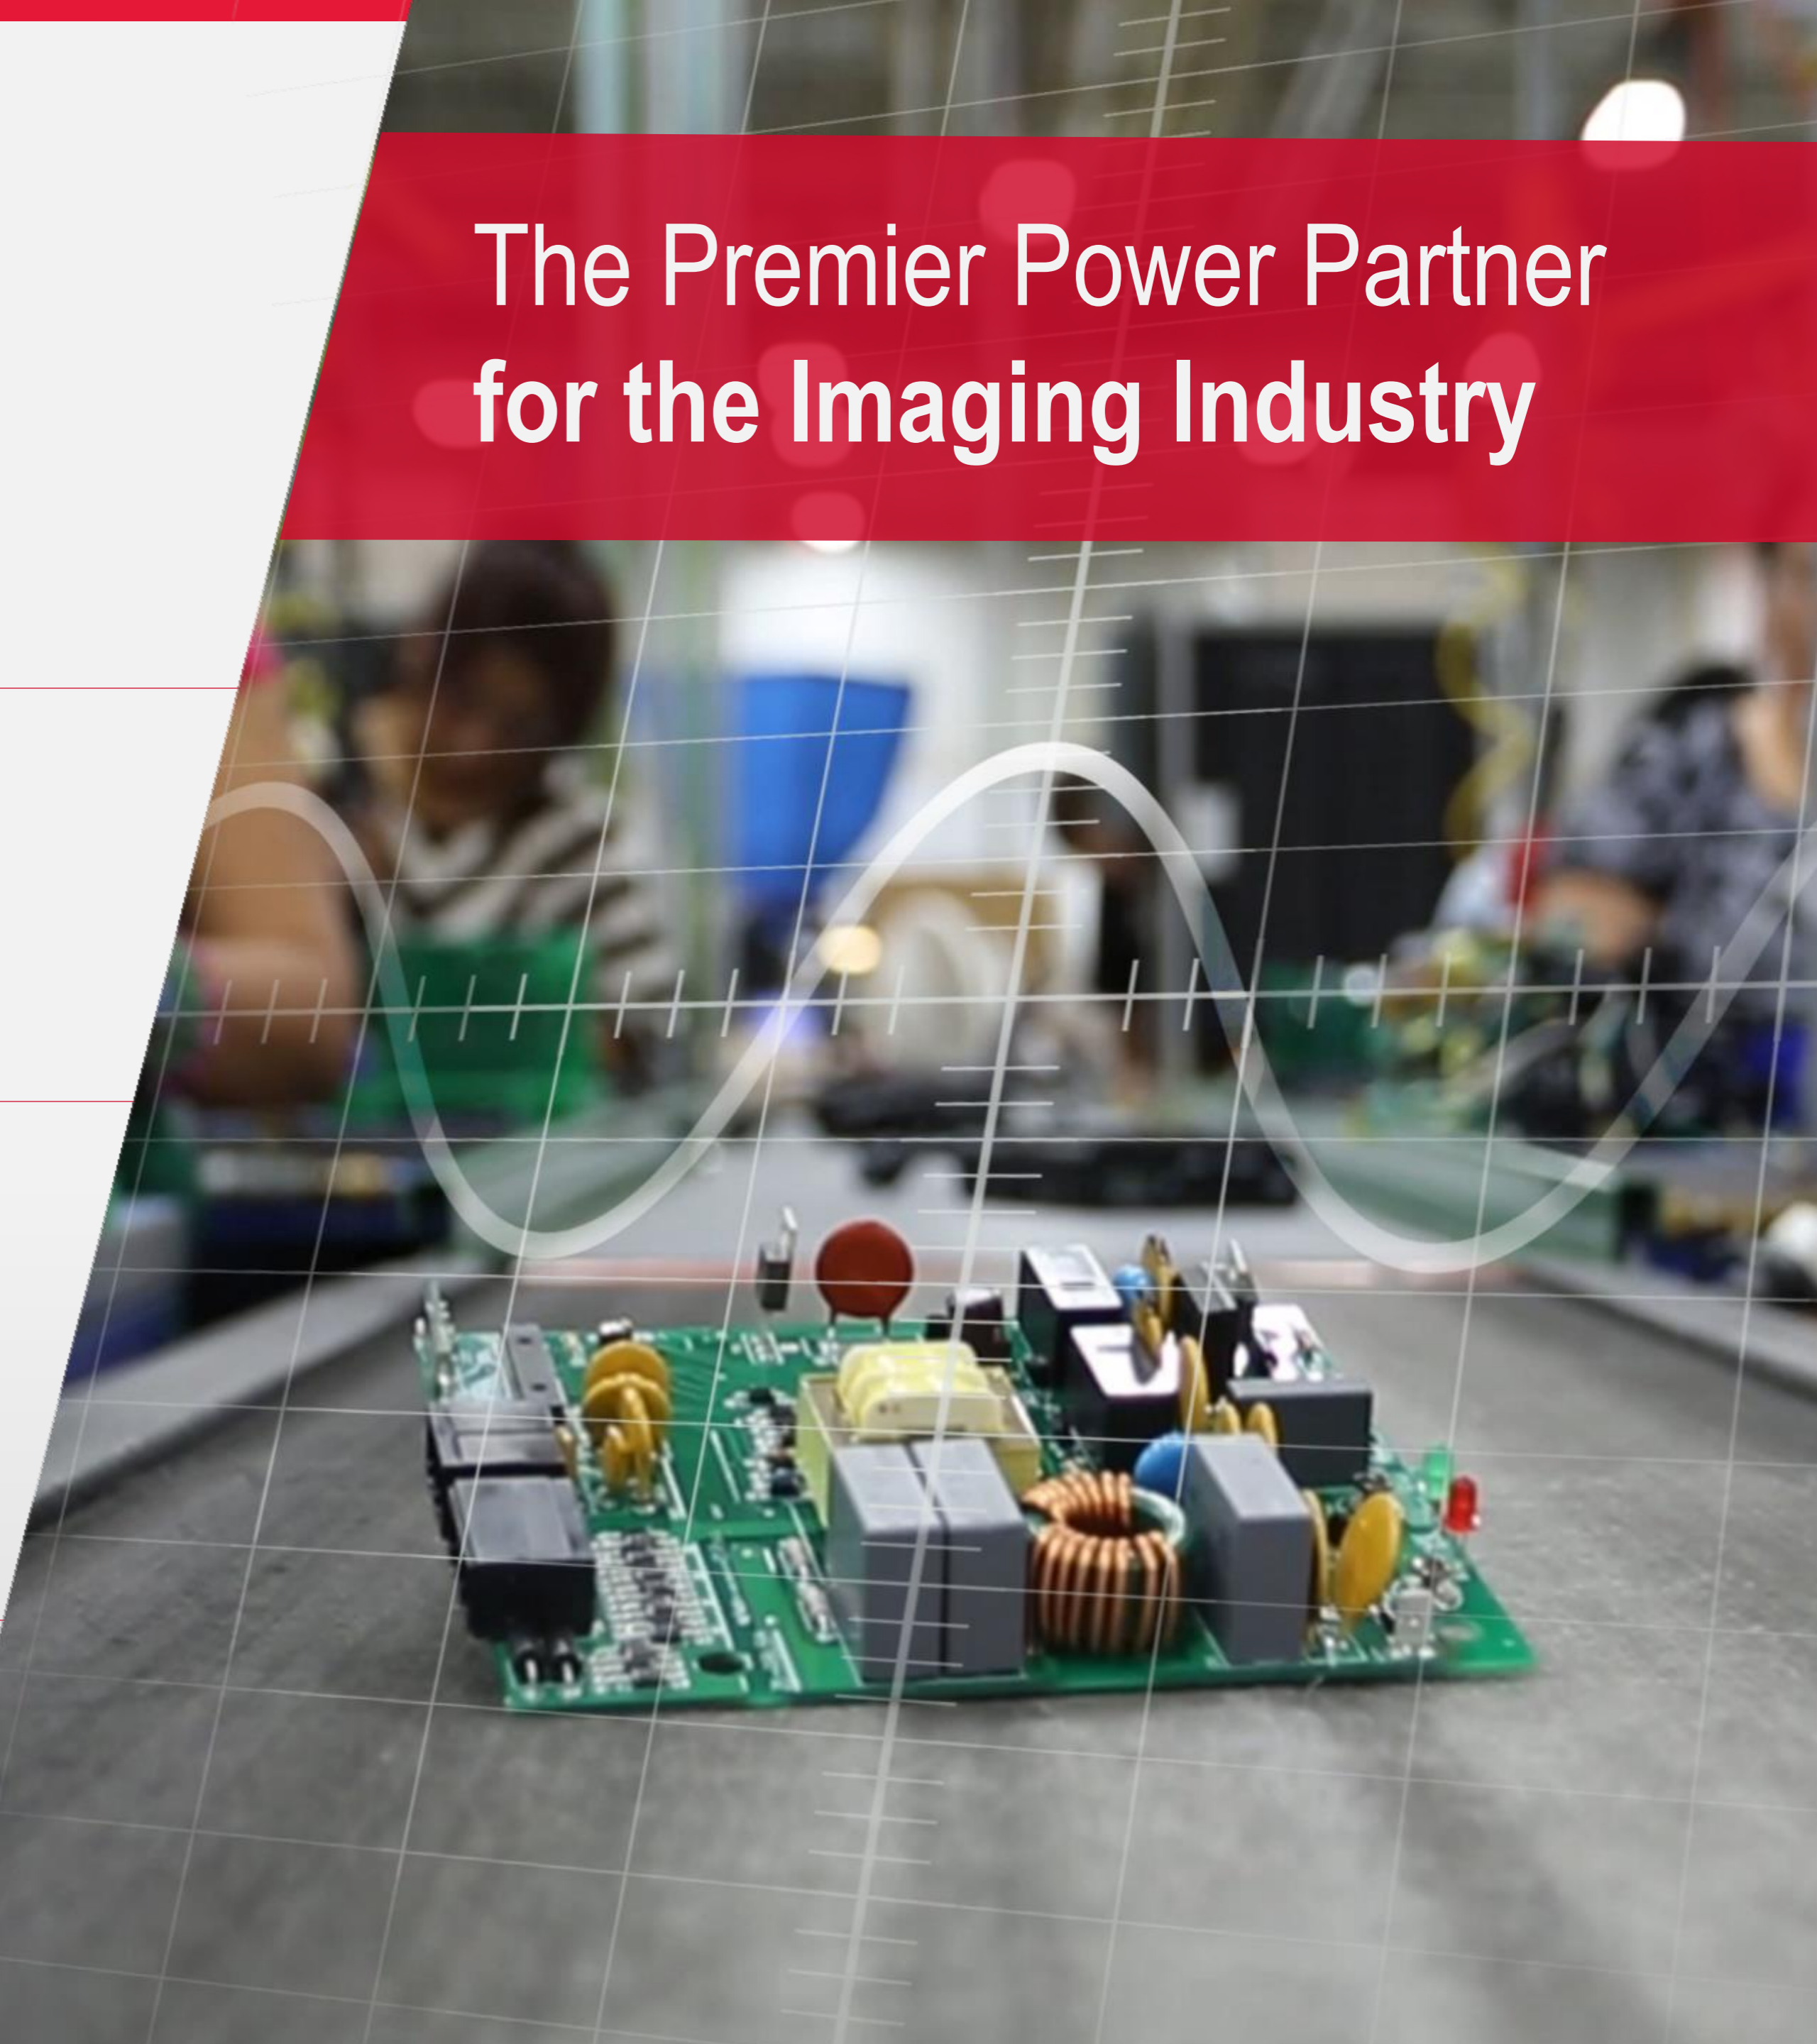

- Full suite of solutions for Segments 1-6

Industrial grade, power quality portfolio

- Safeguards profitability of Imaging equipment
- Made in the USA

Cutting edge technology

- Advanced Power Protection
- Intelligent Diagnostics
- Predictive Maintenance Analytics

Backed by a leading global manufacturer

AMETEK[®]

A global leader in the design and manufacture of advanced instruments for the following markets:

Aerospace & Defense | Industrial Products | Oil and Gas, Power | Process Instruments

How ESP can help you expand your business

Electrical Expertise

- High reliability power conversion systems to power and protect mission critical industrial & commercial processes
- Custom AC & DC power supplies for industrial applications in harsh environments
- Advanced analytics for diagnosis of equipment and power problems

Customized Support

- Worldwide network of power professionals
- Customized solutions

We are here to help you
