

## Add The HECON KCC TO YOUR COPIERS —

### Control Waste & Create Profits

HECON CORPORATION'S Keypad Controller for Copiers (KCC) saves you money by accurately recording and controlling copies and copier users. Completely compatible with HECON's world famous Keycounter, the KCC offers the same functions and much more: 900 individual account numbers up to 9 digits; 200 discrete department numbers up to 50,000; and 200 separate job numbers, also up to 50,000.

KCC is user programmable with maintenance and review functions accessible by the 16 position keypad. The copy control unit is available in three software versions: Incremental; Incremental to limit; and Decremental. Offered as an additional option on all three versions is the RS-232 bi-directional interface for two-way communication.

## KCC Accessories

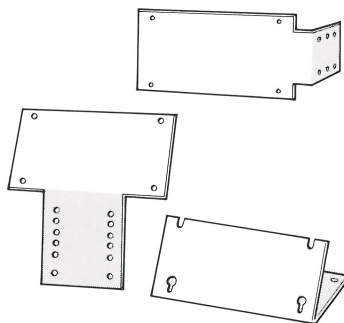

A. The HECON KCC, 40 column, hand held thermal printer with serial RS 232C interface creates hard-copy records of stored KCC data. This high quality, portable printer can be transferred between an unlimited number of KCC units.

B. Easy to install, the HECON Keycounter receptacle mounts directly to the copier via the interface harness.

B. Receptacle & Interface Harness

C. Mounting Brackets

C. Mounting Brackets - Hecon provides three mounting bracket models for use on or close to the copier. All three bracket models can be mounted with four screws, or even velcro for quick and easy removal.

# TURN YOUR COPIER INTO A PROFIT CENTER WITH THE HECON KCC.

## Features

### Account, Department, Job #s

KCC provides 900 account numbers, with up to 9 digits — 200 department numbers and 200 job numbers both up to 50,000. KCC accounts for the copies used and allows instant access to this data via the LCD screen, the KCC portable printer or the IBM compatible lap-top computer.

### Easy to Install

Simply plugs into the existing Hecon receptacle on any copier. KCC then mounts on or close to the copier using a mounting bracket.

### Battery Backup

A 30 day (NiCd) Battery back-up unit offers extended life to the KCC during power outages.

### Quick Access

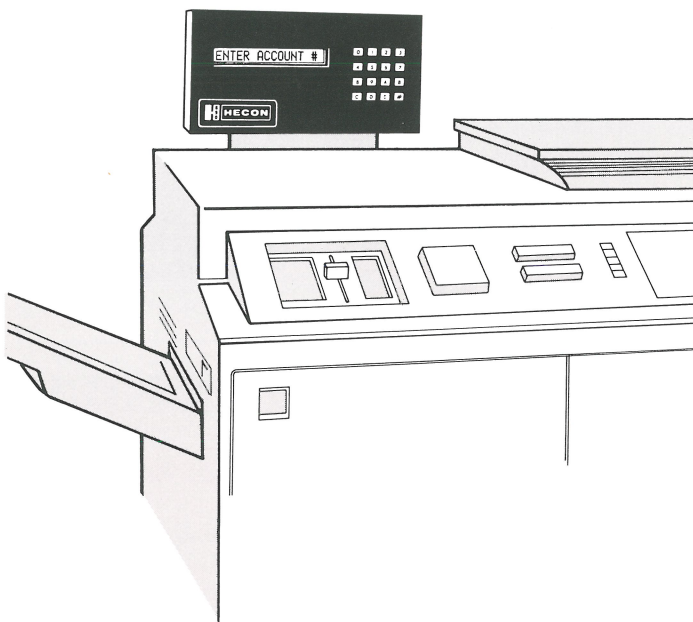

Simple Operation and immediate response allows users quick access to copiers.

### Quick Payback Period

Return on investment of the KCC is surprisingly fast. The KEYPAD will typically pay for itself before its warranty expires.

### One-Year Warranty

The HECON KCC comes with a one-year warranty effective from date of purchase.

## Versions Available

- Incremental - non-preset limit by account number.
- Incremental to limit - preset limit by account number.
- Decremental - counts down from preallocated amount.

## Options

### RS 232 Bi-Directional Communication Interface

Permits communication both in and out of KCC for use with printers or data collection devices.

### Data Collection Device (DCD)

IBM compatible, lap-top PC used to increase data collection speed, manipulate data and generate reports.

### KCC Printer

Allows user to acquire a hard-copy printed report by account, department and job number over a selected period of time. Portability offers application to an unlimited number of KCC units.
