DC-232
DRY PLAIN PAPER COPIER

Today, the Mita DC-232 is your efficiency expert.

Here's the copier that will increase the productivity and efficiency of your office. The new Mita DC-232 dry plain paper copier is Mita's most intelligent, most advanced, most productive copier yet. It is fast, dry and makes even big 11"×17" copies quickly and clearly. In addition, Mita copiers are backed by one of the most impressive service networks in the industry.

In fact, Mita dry copiers have achieved overwhelming owner-acceptance around the world as copiers to depend on.

Mita has been manufacturing products for the image reproduction industry since 1934, making it one of the world's most experienced copier manufacturers. Mita copier technology encompasses the state of the art, and it's all been incorporated into the new Mita DC-232.

There are many reasons why we believe that the Mita DC-232 copier is your best buy in a dry plain paper copier. But the greatest single reason is tremendous value. Get "The Efficiency Expert" for your office operations: the Mita DC-232 dry plain paper copier.

Tomorrow, it's a powerful copying system.

Today, the Mita DC-232 plain paper copier by itself may be enough to handle your office copying demands. But as the size of your business grows, so too will the size and complexity of your copying requirements.

With the addition of Mita's new DF-2 Document Feeder and AS-2 Automatic Sorter, the Mita DC-232 becomes a powerful copying system, capable of taking on even the most demanding of copying jobs.

By letting you increase your copying capability as you need it, the Mita DC-232 permits you to make an investment in a copier today, with full confidence that it can be expanded to handle the larger work load of tomorrow.
