### [Arcoa Group](#)

#### Why partnering with ARCOA makes sense

Electronics Recycling is an important and profitable part of the IT asset lifecycle, but it can be overwhelming with all you already do, varying state regulations, and the limited resources at hand. That's where ARCOA comes in. When you partner with ARCOA, you get all the benefits of a big company without any of the capital investment. We've been doing this since 1989 and have the expertise, certifications, and nationwide resources to get the most for all your clients' retired IT assets. Plus, positioning your clients as environmental stewards not only elevates their appeal to consumers, it meets government requirements and avoids fines.

#### What partnering with ARCOA looks like

Our role is to make it easy for you to bring more value to your clients. We work with you to help stretch your clients' IT budget by reducing the total cost of ownership of their electronics. We're experts at identifying and implementing the solutions your clients need for the end-of-use remarketing, recovery, and recycling of their technology assets. The sooner you involve ARCOA, the sooner you and your clients will see better results.
